Wally,  
Danielle called, she finally got a hold of the DEQ and they said that whoever Gene delegated for signing for him was suppose to do it. From there it would go down the line. As a last resort would be the only time you would be able to sign the form.

She is going to e-mail a letter and the form to us. So we need to get it to the guy that is sitting in for Gene Braithwaite to do the signing.
